

# Donate a Future Today.

Opportunity tomorrow begins with the tools of the present. From education and training to basic food and shelter, see how you can help mothers with young children to not only get on their feet—but to stay there.

Every dollar makes a difference. Every minute matters. Every human being can help. See how you can help donate a future. And know there's no such thing as 'not enough'.

Thanks to Your Generosity,  
**We Exceeded  
Our Goal!**

We can continue to bring hope to the women and children at Casa Carol!

*Thank You!*

### Dear Supporters,

We are so excited about 2013! Because of your faithfulness, we now have resources to be able to improve and expand our program and facilities. The families we serve are developing beautifully in all areas of life – emotionally, financially, physically, and spiritually. We have one resident that we expect will graduate to self-sufficiency in the next few months, and we have new families moving in. Our staff, volunteers, donors and other supporters are all united in a common goal – to bring new hope and self-sufficiency to homeless families, and we have seen amazing results from this teamwork. Lives are being changed, education is underway, jobs are being found, and families are being strengthened because you said "Yes, I want to play my part." Together, let's keep moving forward!

Blessings,

Stacia Glavas  
Founder & CEO

## Resident Spotlight

**Diana**

**Diana** is employed! After graduating and finishing her clinicals from the Phlebotomy/EKG Tech Program in October, she is now working as a phlebotomist!

We are so proud of her and grateful for the donors that made her education and employment possible!

**Liz**

After 6 months on the job, Liz has permanent employment as a Medical Assistant / Medical Receptionist. She also received a raise of \$1.50 per hour. She is still looking for an affordable or donated vehicle. She also is exploring housing options in the Melbourne area, as that is where she is employed, and wants to stay. We anticipate that Liz will graduate within the next several months as the balance of her self-sufficiency plan is in place.

**Jenn**

Jenn starts school two evenings a week for Medical Coding and Billing in mid-January. She continues to work at a Daycare sharing part of the time as a volunteer and the other part as a paid employee. This schedule has struck a good balance for her. In addition she is completing her Child Care Training Courses online, and then testing for all five courses soon.

## Grant Report

### Bank of America and Margaret Binz

We received a grant from Bank of America for \$2500, and they will be coming for a tour and to present the check in January.

The Margaret Binz Foundation blessed us with \$3500 for paper products including diapers, and other necessary paper goods.

**THANK YOU!**

## Featured Volunteer

**Lynn Kush** is a volunteer tutor who continues to show excellence in all that she does for the resident mothers and children. In only one year, she has lovingly and patiently tutored several residents in subjects including History, Math, and Finance. She customizes her tutoring to fit the needs of each student and is willing to commit her time and effort to every task she receives. The residents love her gentle spirit, and they are receptive to her instruction as she makes complex concepts easy to understand. Her time and energy has blessed a junior high student who came to BRM failing history, but with Lynn's dedicated help over a period of 10-weeks, received an "A" in the same class. Lynn also has designed a preliminary finance program for entering resident mothers, and is currently designing a financial mentoring program to help the residents establish life skills in budgeting, spending, and saving. Lynn brings her godly wisdom, education in accounting and finance, and genuine compassion for people to Brevard Rescue Mission. With gratitude, Brevard Rescue Mission recognizes her commitment and outstanding service to this ministry.
